Global Guar Protein, a division of Jinendra Agro Chem, is a manufacturer and exporter for guar products and its by-products. The company's first commitment is to provide highest quality products and services to a global customer base at competitive prices. We are ISO 22000:2005 and GMP certified company, committed to our quality management system and quality policy.

We have a production site at Jodhpur, Rajasthan, India's foremost guar growing state, well equipped with high tech automatic machines. It is manned by the seasoned technocrats and driven by a team of committed workers, who are dedicated to achieve company's quality objectives.
